

In a Business Full of Ups and Downs, You need Trojan Maroon.

We'll make the ride less scary by reducing your Aerial Work Platform downtime and raising your profits. All it takes are deep cycle batteries from Trojan Battery Company. The reason? Trojan Maroon handles jobsite abuse without flinching. And boosts your bottom line by cutting maintenance calls. So, how do we do it? From the ground up, that's how. Every Trojan battery is performance engineered for durability and reliability. Our exclusive Alpha Plus™ paste formula delivers superior active material for longer battery life. And our proprietary Maxguard™ Advanced Design Separator increases run time and extends battery life.

Advantages like these give your fleet's performance a major lift and keep you worry-free when your equipment goes off to work. Next time you're replacing batteries, insist on the best. Your customers will be happy, and so will your bank account. Be sure to look for Trojan

Maroon in your new equipment, too.

Ask for Trojan by name. Or by color. Our batteries are always easy to find. For the nearest Trojan Master Distributor, call 800-423-6569. Or visit us at www.trojanbattery.com.

TROJAN
DEEP CYCLE

Look for LEUs to make deep cycle battery comparison simple.

Pioneered by Trojan, Lifetime Energy Units™ are an accurate, convenient way to compare the relative value of one deep cycle battery to another. Simply stated, Lifetime Energy Units (LEUs) signify the number of kilowatt-hours of energy a battery delivers over its useful life. The bigger the number, the more work the battery can perform. Yes, it's that simple!
